PROFESSIONAL SUMMARY

Full Stack Developer with 1.5+ years of production experience shipping B2B SaaS products remotely. Currently at Techfy, building and maintaining Click2Deploy — a multi-tenant cloud-deployment SaaS with Stripe billing. Independently designed and shipped Floww, a social-media automation platform built on the Meta Graph API, as a freelance project. Proficient in Next.js, NestJS, TypeScript, PostgreSQL, and AI/LLM integration. Available for on-site, hybrid and remote roles — including Dubai/UAE relocation — and comfortable overlapping EST/GST working hours.

EXPERIENCE

Associate Software Engineer · Techfy (Remote)

Dec 2024 – Present

- Build and maintain Click2Deploy, a live multi-tenant B2B cloud-deployment SaaS serving real paying customers.
- Implemented Stripe subscriptions, billing webhooks, and plan upgrade/downgrade flows; fixed a production planId sync bug where subscription upgrades weren't reflected in the database.
- Built plan-based access control with JWT authentication, RBAC, and multi-tenant data isolation.
- Engineered a prefetch-on-boot latency architecture (global cache + localStorage TTL) and resolved localStorage cross-tab contamination across 51 files via a URL-prefixed storage utility.
- Collaborated with UI/UX, QA, and product teams in an agile workflow using ClickUp and Airtable.

Software Engineer Intern · Ashwiz

May 2024 – Aug 2024

- Developed responsive full-stack web apps using React.js, Node.js, Express.js, and MongoDB.
- Built and integrated RESTful APIs; participated in code reviews, debugging, and Git-based version control.

KEY PROJECTS

Floww — Social Media Automation SaaS FREELANCE · Next.js · NestJS · PostgreSQL · Meta Graph API

- Designed and shipped an end-to-end social-media automation SaaS on the Meta Graph API — keyword triggers, DM flows, comment-reply automation, story mentions, and email-gate sequences for Instagram & Facebook.
- Built a React Flow visual automation builder with dynamic edge management, orphaned-node pruning, and PostgreSQL cascade deletes; webhook deduplication via canonical ID matching.
- Integrated Claude and OpenAI-compatible APIs for agentic workflows and AI-powered automation features in NestJS.

Click2Deploy — Cloud Deployment SaaS TECHFY · Next.js · NestJS · PostgreSQL · Stripe

- Multi-tenant deployment platform with Stripe billing, plan-access control, and prefetch-on-boot latency optimization.

Toolrift — AI Tools Platform · Next.js · Neon · Groq API

- Launched a 50+ AI tools aggregator on Product Hunt with a zero-cost serverless architecture.
